repulsed by force, United Press International reported from Tel Aviv. [Israeli planes strafed several tanks that tried to push west from Syrian-held territory "as a sign we do not intend to permit entry into

this area," according to Moshe Levy, the army chief of staff.] The Lebanese state radio said President Amin Gemayel's government had labeled the pullback a violation of a troop withdrawal

pact with Israel. Lebanese newspapers and radio stations accused Israel of a "double-cross" in withdrawing so quickly. They quoted Lebanese officials as saying it was done without notice or coordination while the Lebanese Army was preoccupied with re-establishing government authority in Moslem West Beirut, where Shiite militiamen had fought the

army for five days last week. The Israeli command said it had accepted two U.S. requests to delay the pullback but had refused a third request.

Hundreds of artillery shells and rockets from Christian and Druze militias struck villages in the 600square-kilometer (228-square-mile) rea abandoned by the Israelis. The fighting spread to Beiruf's southern and eastern suburbs. Thirty-one persons were reported by police to have been killed and 71 injured.

A Lebanese Army assault unit fought leftist Druze irregulars near Beirut International Airport.

Italian and French troops of the BEIRUT — Heavy fighting multinational peacekeeping force broke out in Beirut and the Chuf were in the middle as the two sides traded shells and rockets over their heads. A marine and an Italian soldier were reported wounded.

long-awaited Israeli withdrawal A Marine spokesman, Major Robert Jordan, said marines fired Warring factions in both the back at militiamen south of the airport during the afternoon. The Israeli withdrawal came

without notice and was accomplished in hours. Officers arriving at the military's south Lebanon headquarters in Si-

don reported their units faced no opposition and suffered no casualties. Reducing casualties had been a main objective of the withdrawal. While some combat units headed into Israel for the Jewish New Year

holiday, others took up new positions along the Awali River. The Israelis have built a chain of earth fortifications and lookout posts that stretches 113 kilometers (70 miles) inland from the Mediterranean. It is about 40 kilometers north of the Israeli border.

Despite the withdrawal, about 500,000 Lebanese will remain under Israeli control in an occupied area of about 2,800 square kilometers. Israel has said it would not leave this area until Syrian troops agreed to leave Lebanon.

Lebanese soldiers had intended to take over from the Israelis to prevent the outbreak of factional fighting. But the Israelis were completely out of the important Aley province and well south of Beirut before Lebanese Army units moved from the capital.

■ 'Message' for Syria

Mr. Arens, the Israeli defense minister discussing the attack by Israeli planes on Syrian tanks, said we made it clear we do not want instite forces entering the area that we leave," UPI reported.

"It should be clear to the Syrians that it includes them," he said. "We do not want Syrian forces entering the area that we leave and I think that message is well understood in The U.S. marines and British, Syria.

Protesters applauded over the body of one of the policemen killed during the clashes in Moro, Sind province.

cial council in Karachi the forces would ensure that local council elections scheduled for Sept. 29 went smoothly.

General Zia, in Istanbul at the

end of a six-day visit to Turkey, repeated Saturday he would stick to his plan to hold general elections and end martial law in March 1985. Six self-exiled members of the Pakistan People's Party, the largest opposition party, plan to return here Monday to help spread protests into the Punjab, Pakistan's most populous province. Opposition sources said they expected them to be arrested on arrival

The party was founded by Zulfikar Ali Bhutto, who ruled Pakistan for five years before General Zia overthrew him in a 1977 coup and later had him executed.

The weekend's casualties out, Sind's governor, Lieutenant brought the official death toll to 31 General S.M. Abbasi, said Satur-while the opposition said it now brought the official death toll to 31

Political Wars in Mideast — and U.S. — Snag Reagan Plan

By Joseph Fitchett

WASHINGTON - U.S. policy in the Middle East. which aroused high hopes a year ago when President Ronald Reagan launched his peace initiative, is bogged down in Lebanon because of stalemates both in the Middle East and in Washington, according to U.S., Arab and Israeli sources.

The crisis in Lebanon demonstrates, they say, the intractable problems on the ground in trying to reconcile warring Middle East factions and also the limits on U.S. action because of conflicting views in Washington among rival bureaucratic factions.

For U.S. policy, the outlook is "more of the same, trying to patch things together in Lebanon," according to a U.S. official who works directly on the problem and thus refused to be identified.

An official said that the revival of the Reagan plan would require unprecedented political will in the White House. He added that Mideast risk-taking was unlikely in an election campaign period when politi-cians are very conscious of the ability of pro-Israeli groups to provide money and organizational support.

In Lebanon itself, the Reagan administration is militarily constrained by Pentagon reluctance and congressional objections to sending more U.S. troops. The diplomatic options are limited because U.S. policy-makers, after keeping Syria in the dark during a year of U.S. diplomacy, seem to be in the dark themselves now about how to deal with Syria.

Several officials said the White House would probably authorize U.S. marines to operate more boidly in Lebanon, joining the Lebanese Army in patrolling regions evacuated by Israeli troops.

But these changes are probably the maximum that President Reagan can order without causing an outcry

officials said.

Ultimately, a durable settlement in Lebanon seems likely to require Syrian assent, but no U.S. policymaker appears able to suggest how to obtain it. Yet the White House cannot walk away from Lebanon because the Reagan administration claims the Israeli-Lebanese accord as a foreign policy success.

This dogged concentration on Lebanon to the virtual exclusion of other aspects of the Arab-Israeli prob-

NEWS ANALYSIS

lem underscores how drastically the Reagan administration has lowered its sights after a year of diplomacy.

The Reagan plan called on Israel to give up some land for peace with its neighbors and envisaged Jordanian negotiations with Israel about Palestinian auton-

omy on the West Bank. Coming on the heels of U.S. moves to get Israeli and Syrian forces out of Lebanon after the massacre in the Beirut refugee camps, the plan won cautious acceptance from moderate Arab governments and revived

U.S. prestige in the region.

Although the Reagan administration contends that Syrian obduracy and Jordanian hesitancy blocked U.S. plans that ultimately would have served Arab interests, the United States and its moderate Arab clients have also lost influence.

Interviews with U.S., Arab and Israeli source aimed at reconstructing the diplomatic failure that led to the present impasse, produce an overall impression: U.S. presidential diplomacy lacked vigor and followthrough at critical junctures. Arab diplomats said the United States failed to

capitalize on Israeli political vulnerability after the Sabra and Chatila massacres, causing a delay that gradually sowed doubt about U.S. sincerity. The Pentagon opposes a combat role for U.S.

These doubts were particularly strong in Syria, troops, apparently because military leaders are leary especially after Philip C. Habib, the U.S. negotiator,

land, the ministry said.

Nevertheless, the report Satur-

day was the first Soviet statement

that any trace had been discovered

of what presumably was the Kore-

an jet, a Boeing 747 on the Anchor-

age-to-Seoul leg of a flight that had begun in New York.

Broadcasting Corp. said that the government had evidence that an order to fire on the South Korean

plane had been given from a Soviet

At the same time, the Japan

of a halfhearted political commitment, several U.S. decided to keep Syria in the dark about the Lebanese-

Instead, U.S. officials decided it would be more practical for the Lebanese to keep the Syrians informed and thus stay informed themselves about what Lebanese concessions would be acceptable in

In fact, Lebanese officials did little talking to one another and none to the Syrians, apparently because they were afraid of Syrian objections. They counted on Arab pressure to impose a final accord on Syria.

Old Syrian hands in Washington warned that Syria would be a problem, especially since Mr. Assad distrusted Mr. Habib. Mr. Habib had provided personal assurances last summer that Israel would observe a cease-fire just negotiated by Mr. Habib, and within hours Israeli aircraft wiped out Syrian missile batteries in Lebanon's Bekaa valley.

Mr. Assad focused his efforts on blunting the other prong of U.S. diplomacy by preventing King Hussein from agreeing to negotiate with Israel.

During King Hussein's visit to Washington in December, U.S. officials said recently, President Reagan offered far-reaching promises.

If Jordan would announce its readmess to negotiate over the West Bank, Mr. Reagan promised, the United States would obtain a freeze on Israeli settlements before the talks started

The talks themselves, Mr. Reagan reportedly promised, would be short and would conclude with a transition period to Palestinian autonomy perhaps as short as one year.

But, officials said, the United States neglected in ensuing weeks to "keep the stroke on Hussein," with the result that the Jordanian king apparently skeptical about U.S. determination, felt he dare not take the plunge without support from Yasser Arafat, chairman of the Palestine Liberation Organization.

The PLO, under Syrian and Soviet pressure, balked, and King Hussein backed away.

"Arafat got the worst of both worlds," an analyst said. "He passed up what might have been a U.S. breakthrough, then the Syrians went ahead anyway with the punishment they had prepared in case he cooperated with the Americans."

But Mr. Arafat, like King Hussein, had become more dubious about U.S. policy because of the stalled I ehanese taiks.

"Timing was crucial," a policy-maker said. "What was possible in December or January wasn't possible by the spring: the Syrians had become too strong." This official and several other diplomats now say that the United States should have insisted on a simple

agreement that would have quickly gotten Israeli troops - and therefore the Syrians - out of Lebanon. A parallel policy dispute was under way in Israel,

according to recent press reports.

Israel's intelligence service, Mossad, had the ambitious goal of helping the Christian Phalangists turn Lebanon into a pro-Israeli state. This dictated steep Israeli bargaining terms and delayed Israeli disengagement. The Israeli Army, however, was urging a quick deal and an early pullback to the security perimeter in

south Lebanon. While Israel delayed, a U.S. official said, the psychological tide in the Arab world turned in Syria's favor, then hardened against Lebanon when the extent of Lebanese concessions emerged.

Lebanese sources blame the United States for insist-ing on "normalization" with Israel. but U.S. officials say they only supported these concessions when it became politically essential for the Reagan adminis tration to obtain a diplomatic coup, the withdrawal

That agreement, stonewalled by Syria, now forces the United States to concentrate all its efforts on preventing the collapse or partition of Lebanon.

WORLD BRIEFS

Disobedience Planned Against Marcos

MANILA (UPI) - Supporters of Benigno S. Aquino Jr., the opposit tion leader who was shot to death on Aug. 21 as he returned from voluntary exile, have announced plans for a civil disobedience campain

against the government of President Ferdinand E. Marcos. A statement Saturday said that leaders of Mr. Aquino's Laban party "unanimously agreed on the overriding objective of restoring free deap. cratic process and ultimate establishment of a free government, nonviolent confrontation or civil disobedience as the immediate means.

Party sources said there was no agreement on what exactly the party would do to take advantage of a large popular showing of sympathy for Mr. Aquino. Participants also were divided on whether to participate in next year's legislative elections.

Chilean Ex-Official Ends Spanish Exile

SANTIAGO (Reuters) - Andres Zaldivar, a former Chilean finance minister and former leader of the banned Christian Democratic Party. returned from exile over the weekend and pledged to fight for a remm a democracy in Chile.

Mr. Zaldivar was welcomed Saturday by several hundred as he arrived at the Santiago airport from Spain, where he had been living for three

He praised President Augusto Pinochet's military government for lifting a ban on the return of several hundred exiles, including himself. but added: This is not all. My country has no right to live what it is living through." Ten years of military rule. Mr. Zaldivar said, have transformed Chile into a nation that was "politically, economically and morally

Nigerian Ruling Party Wins Majority LAGOS (AP) - The dominant National Party of Nigeria won nearly 60 percent of the seats in the House of Representatives, according to fina

ults of the Aug. 27 elections released Sunday. The party, led by President Shehu Shagari, won 263 seats in the 450-seat House, followed by the Nigerian People's Party with 48 seats and the People's Redemption Party and the Unity Party of Nigeria with 41 seats

Voting has been put off indefinitely in Oyo and Ondo states, both Unity Party strongholds, following violence after the gubernatorial elections in mid-August in which 43 people reportedly died. Mr. Shagari was recently returned to a second four-year term by more than four million votes and his party also won 13 of 19 state governorships and 55 of 85 contested Senate seats.

Glemp Defends Workers, Walesa

CZESTOCHOWA, Poland (Reuters) — Cardinal Jozef Glemp warned the Polish authorities Sunday against insulting the country's workers, saying that they were largely responsible for the process of national

in an unusually tough sermon before about 100,000 farm leaders gathered for a harvest service, Poland's Roman Catholic primate issued a clear defense of Lech Walesa, leader of Solidarity, who has come under fierce official attack.

The cardinal's remarks were seen as the church's reaction to a televised confrontation between Mr. Walesa and Deputy Prime Minister Mieczys-law F. Rakowski at a meeting in Gdansk 10 days ago, during which the minister scorned Mr. Walesa and his movement. Several Solidarity banners were seen in the crowd, which included the leaders of farm delegations from around the country.

Peronists Convene After Fraud Claim

BUENOS AIRES (Reuters) - An investigation of accusations of fraud in electing delegates to the National Congress of the Peronist Party. has prevented about one-third of the delegates from attending the

The congress began Saturday, after an appeals court on Friday barred 235 delegates from the province of Buenos Aires from attending pending a judge's investigation of charges that they had been elected by fraud and

The former Argentine president, Isabel Perón, 53, was also absent-Peronist sources said she would not return from exile in Spain, where she has been since 1981, until the government lifts a ban on her holding office. Some traditionalists are supporting her for the Peronist nomina-tion for president, but it has been reported that the party leadership has agreed on a moderate former senator, Italo Luder, as its presidential candidate in the Oct. 30 elections.

Mintoff, in Shift, Takes Interior Post

VALLETTA, Malta (Reuters) - In a major reshuffle in Malta, Prime Minister Dom Mintoff, has again taken over the ministry of the interior, which controls the army and the police, and given new position to all but three ministers. Veteran ministers were installed in areas where Malta is having major difficulties - industry and employment, the economy, and tourism

After the 1981 elections Mr. Mintoff gave up the ministries of foreign affairs and the interior, starting speculation that he was about to retire from politics.

The tourism minister, Reno Calleja, resigned in the reshuffle Friday whether Soviet pilots pursuing the night, while the minister for foreign affairs, Alex Sceberras Trigona, South Korean plane knew it was a retained his post.

Irish Leader Opposes Abortion Plan DUBLIN (Reuters) — Prime Minister Garret FitzGerald of Ireland

has said that it is his duty as a Christian to vote against a controversial proposal to outlaw abortion in an upcoming referendum.

In a statement issued Saturday night, Mr. FitzGerald acknowledged

that he had initially supported a campaign launched two years ago by a small rightist pressure group to put the existing legal ban on abortion into

But Mr. FitzGerald said that he had opposed the amendment after his own attorney general said that the wording was so ambiguous that it might make abortions easier and could endanger a mother's life. However, Mr. FitzGerald stopped short of urging voters to act against the

South Africa Media Unveil Press Plan

JOHANNESBURG (Reuters) — The South African newspaper industry has unveiled the details of a new watchdog body aimed at avoiding further government controls on the press.

The plan for a media council was unveiled Saturday. The council which will start work in November, is being given a chance to prove itsely by the government, which has delayed enforcing a law passed by

The law, known as the Registration of Newspapers Amendment Act requires all newspapers to subject themselves for disciplinary purposes to a "voluntary" body and empowers the minister of internal affairs to cancel the registration of any newspaper that fails to accept its decision.

The law was rushed through Parliament in the final days of the 198. session, but was shelved earlier this year after newspapers opposed i

■ Search Reported Over

Japan's Kyodo News Service said Sunday that the Soviet Union appeared to have ended its search for a the downed jet, news agencies reported from Tokyo.

Kyodo quoted Japanese military sources as having said that an anal-ysis of Soviet ship-to-shore communication off the southern end of Sakhalin revealed a sharp decline in activity after Friday night.

The Soviet Union has ignored Japan's requests that its search ships be allowed to enter Soviet waters off Sakhalin.

One Japanese ship that was stopped short of the suspected crash site was carrying 41 Japanese and 6 Korean relatives of passengers of the jet. When the ship, escorted by a Maritime Safety Agency patrol boat, reached its northernmost point, the relatives threw flowers into the ocean and began crying for their lost family

A vice president of Korean Air Lines, Cho Choong Kun, said in a conference on the island of Hokkaido that the airline was willing to pay \$75,000 in compensation to the family of each passenger.

Officials in Seoul told Reuters that South Korea had ruled out direct sanctions against the Soviet Union over the loss of the plane.

Members of the National Assembly had urged the government to close the Korea Strait, with the help of Japan, to Soviet shipping, but Foreign Minister Lee Burn Suk made clear that no such measure was planned, the officials said.

President Chun Doo Hwan met with officials at the presidential mansion and was reported to have called for stepped-up diplomatic efforts to gain even wider support for South Korea in its demands for compensation from the Soviet

WASHINGTON -- Intelligence analysts studying information about the flight of a South Korean plane that the United States charges was shot down by a Soviet jet say they cannot rule out the possibility that the plane's crew might have flown intentionally into Soviet airspace on a short-cut route to Seoul.

Korean Air Lines officials have rejected such a possibility, saying that their pilots were well aware of the danger of entering Soviet airspace. But the question remains one of several that may never be

resolved, according to the analysts. The intelligence experts also said Saturday that the record does not disclose how the plane strayed over Soviet airspace or whether Soviet pilots realized they were pursuing a passenger plane. The experts are working with recordings of communications between the South Korean crew and Japanese air traffic controllers and conversations between Soviet pilots and their

ground commanders. The United States did not receive the recordings, which were made by the Japanese, until almost 12 hours after the incident on Thursday. American officials have said that the United States had no ability to monitor the conversa-

tions as they were taking place.
The officials said that other interceptions of Soviet communications provided only a fragmentary picture of how the decision was made to shoot down the plane and who approved the attack.

The intelligence officials, cau-tioning that their speculation was based on circumstantial evidence. said it was difficult to support any other explanation on the basis of available information about the route of Korean Air Lines Flight No. 7 from New York to Seoul."

The officials said they knew of no previous efforts by South Korean pilots to save flying time to armed forces." Television viewers saw Challenger's crew playfully attack to a wall. Dr. Bill, as he is known, has put his colleagues Dr. William E. Thornton with various tools after taping him through a series of medical tests on space motion sickness.

Shuttle Crew Stars in TV Show on Space Sickness In Broadcast From Challenger, Doctor Explains Experiments on Colleagues

By Lee Dembart

Los Angeles Times Service HOUSTON - In one of the most umusual astronaut television broadcasts since the lunar landings, Dr. William E. Thornton presented a detailed account of the experiments he is conducting in orbit to solve the riddle of space sick-

Dr. Thornton, 54, who was added to this third flight of Challenger, the eighth in the U.S. space shuttle program, to study space motion sickness, indicated that it has affected some of the five astronauts now flying 138 miles (223 kilometers) above the Earth.

The National Association of In keeping with space agency po-Manufacturers, in contrast, licy, he would not say who has been complains that deregulation is losing its momentum. Citing resick. But, he said, "There have been in a crew this size the usual range of symptoms that occur during adap-tation," including upset stomach, drowsiness and malaise. gress to more liberalization, a latory legislation is needed to prevent a new president from

"I would say that I learned more in the first hour and a half of orbit here than I had by all of the literature research that I'd done and all the active work in the past year,"

hours before he put on his television show from space on Saturday. Challenger, launched last Tuesday, was due back in the United

States Monday.
During the broadcast, Dr. Thornton indicated that he sided with the sensory-conflict theory of space sickness. "As you know, we always have to

be aware of which way is up and down on Earth, but here, there is no up and down, and so the nervous system has to adapt to that," he With that he showed Lieutenant

Colonel Guion S. Bluford 2d walking on a treadmill while vital signs of his neurological system were re-

eled electrodes that pick up eye pliers and a screwdriver, and they motion. The eyes give us a partic- advanced on Dr. Thornton, who in

Dr. Thornton told reporters a few ularly good insight into the way our the meantime had been taped to the balance mechanism works," Dr. wall. Thornton explained.

Finally, Captain Richard H. Truly, the mission commander, was brought in to demonstrate how Dr. Thornton is studying the nervous system directly. "Commanders always have very large brains," the doctor said.

Electrodes were attached to Cantain Truly's scalp to pick up brain

"This will allow us to spot any functional changes," Dr. Thornton

At that point, Commander Truly took the microphone and praises Dr. Thornton as "the hardest working individual on board."

Next was Lieutenant Commander Dale A. Gardner, who was wearing a foot-to-thigh stocking with months we've had to put up with ial tapes on it to measure the what we've called Bill's chamber of movement of body fluids from the horrors. So we have a little mea-

surement program of our own." leg upward. surement program of our own.

Commander Daniel C. BrandenHe picked up a hammer, the othstein, the mission pilot, next mod- er crewmen picked up a wrench,

During the earlier conversation

with reporters, Dr. Thornton was asked whether age made a difference in space flight. "Well, we certainly don't stop

life just because we have a few years," he said. "We should not count physical conditions by the number of years but look at the physiological age and capacities of an individual."

He also said he knew of no medical reason why a private citizen could not fly in space, a point that Captain Truly agreed with.

"I do think in the future we can safely and easily fly private citizens in space with the proper introduction and preparation," Captain Truly said.

An engineer from the U.S. airscheduled to fly on the shuttle next an egalitarian liberal," nonetheless was claimed by Basque separatist

Reagan had used that advantage to give coherence to "the strategy and tactics of his presidency."

By contrast, Mr. Hargrove said, unpublished interviews by scholars at the University of Virginia with all the key figures in the Carter White House draw a portrait of a president "who did not think strategically about the relationship between policy and politics." "Even though he got a lot of political advice, he was reactive

rather than creative in his approach," Mr. Hargrove said. Many of the political scientists

who presented papers made it clear that their professional admiration for Mr. Reagan's skill in wielding presidential powers did not extend to his policy objectives.

Michael E. Kraft of the Universi-

ty of Wisconsin-Green Bay and Norman J. Vie of Carleton College in Minnesota asserted that Mr. Reagan's success in changing the country's environmental policies is particularly striking when compared to the picture drawn by students of the American presidency ... of a 'no-win presidency.' "

Even though they dislike many of his policies, they said, "Reagan's 'revolution' is predicated on a radical reassertion of presidential powers and prerogatives."

Three comparative studies of decision making in the Reagan and Carter White Houses, based on exhighly flattering to Mr. Reagan.

Scholars Praise Reagan

As Better Than Carter

By David S. Broder

CHICAGO - Political scien-

tists are submitting their first re-

port cards on the presidency of

Ronald Reagan, and the incum-

bent is beating his predecessor,

Jimmy Carter, by an even wider

margin than he did in the election

Papers and panels at the annual

meeting of the American Political

Science Association drew a picture

of a Reagan White House with no-

tably high levels of policy agree-

ment, staff coordination and politi-

By contrast, the Carter adminis-

tration was almost entirely lacking in the ingredients for success, ac-

cording to scholars who are starting

to sort through its private records.

University in Tennessee, who is at work on a study of the domestic aspects of Mr. Carter's presidency,

sounded a typical note when he said Friday that Mr. Reagan had

created "a sense in the country that

he is addressing fundamental his-

torical questions." He said Mr.

Erwin C. Hargrove of Vanderbilt

of 1980.

cal acumen.

By contrast, he wrote of Mr. Carter: "One is led to the overriding conclusion that while the experience, administrative style and personality of this president surely did not create most of the challenges to stability, they do go a long way to explain the limited capacity to cope with these challenges." The Rev. Colin Campbell of

Georgetown University in Washington, in a study of the cabinet's role under Mr. Carter and Mr. Reagan, said that Mr. Carter had seemed to follow sentiment more than design in setting up his White

Mr. Carter's decision-making "was short-circuited by two failures," Father Campbell said. "First, Carter in his personal en-counters with aides whom he did not know well, avoided overt conflict. Second, the advisers he trusted implicitly, mostly Georgians. demonstrated near-paranoia about political appointees not in the charmed circle and career offi-

According to Father Campbell, Mr. Reagan "has used his cabinet and White House exceedingly well." He added that "we should not be hilled by Reagan's inattentiveness to detail and nuances" and that "as president, Reagan has imposed exceptional discipline on his

Father Campbell and John H. Kessel of Ohio State University, who did his own interviews with 44 members of the Reagan White House staff, found effective coordination of policy and operations among the four leading aides of the Reagan administration, James A. Baker 3d, Edwin Meese 3d, Michael K. Deaver and William P. Clark.

"The White House staff was not preventing President Reagan from pursuing his preferred policies," Mr. Kessel said. "Their conservatism mirrored Reagan's own."

Mr. Kessel found that there was about 50 percent more internal communication within the Reagan staff than there had been on the Carter staff and said that the reason "is the existence of coordinators whose counterparts did not exist in the Carter White House."

Opposition Parties Testing Freedoms As Sandinists Consider Election Law

By Stephen Kinzer

New York Times Service MANAGUA - In a rundown movie theater during the last weekend in August, 90 members of the Democratic Conservative Party gathered for the first opposition political convention held in Nicaragna since the Sandinist National Liberation Front swept into power four years ago.

ployees will get Diners Club credit cards to pay for their gov-emment travel and entertainment expenses. The initial onevear contract is expected to generate \$70 million in billings. The program may eventually be expanded to cover 250,000 em-

substantially in using energy more efficiently, but cars that get poor gas mileage are roaring back. A desire for comfort, an impression that gas is abundant and cheaper, and revived prosperity are cited as factors making Detroit's biggest and plushest family cars the leaders in

Luis Cano Arauz, a left-handed pitcher, held the Americans score-

less through eight innings. Exuberant fans in the Venezuelan stadium

could be heard chanting: "Yankees, no! Nicaragna, yes!"
Guillermo Cortés, a Nicaraguan sportswriter, wrote: "It was hard

not to think of the warships and thousands of American soldiers

closing in on our coasts while Cano blanked the gringos through eight

Nicaragua's silver medal qualifies the team for the 1984 Olympic

Games, where baseball will be included for the first time. Mr. Cortes

reminded his readers that the 1984 Olympics "will be held in the very

powerful enemy, the United States, in a head-on clash in Latin

ists last Wednesday in Chinandega.

Under provisions of the "state of emergency" imposed in March 1982, most civil liberties, including freedoms of speech and assembly, are restricted. But over the last few weeks, opposition leaders said, there has been a noticeable thaw in the political chimate. The meetings that are going on

these days would never have been permitted three months ago," said Adan Fletes, head of the Social Christian Party. "But we remember the years of dictatorship, when there were periods of looseness interspersed with repression. Perhaps that same cycle still exists. We shall

Although politicians appear to have been given some room to maneuver, 35 activists from the Democratic Conservative and Social Christian parties are in jail. Some have been accused of counterrevohitionary activity, but others have not been charged with any crime. Several have been recognized as choosing a brand of soap or de-"prisoners of conscience" by Amnesty International.

Three weeks ago, the Sandinist-controlled Council of State, which reviews laws proposed by the goveming junta, approved a Political That the convention was held Party Act after six months of vigorwithout incident was considered an ous debate. Opposition members

able to hold a meeting of 200 activ-tive than the one originally proposed.

Under the new law, which needs the approval of the junta to take effect, political parties are guaranteed the right to hold private meetings and public rallies, maintain offices anywhere in the country, raise funds and distribute literature. They may also criticize the government and propose "constructive solutions" to problems.

Most important in the view of the opposition, parties have the right "to aspire to power." Their platforms cannot be restricted as long as they respect "the basic principles of the Sandinist revolution. Still unresolved, however, is the

crucial question of what kind of elections the Sandinists will permit. Sandinist leaders have given few hints of their plans. In a recent speech, Sergio Ramirez Mercado, a junta member, asserted that Nica-ragnans would not be asked to select a candidate "as if they were

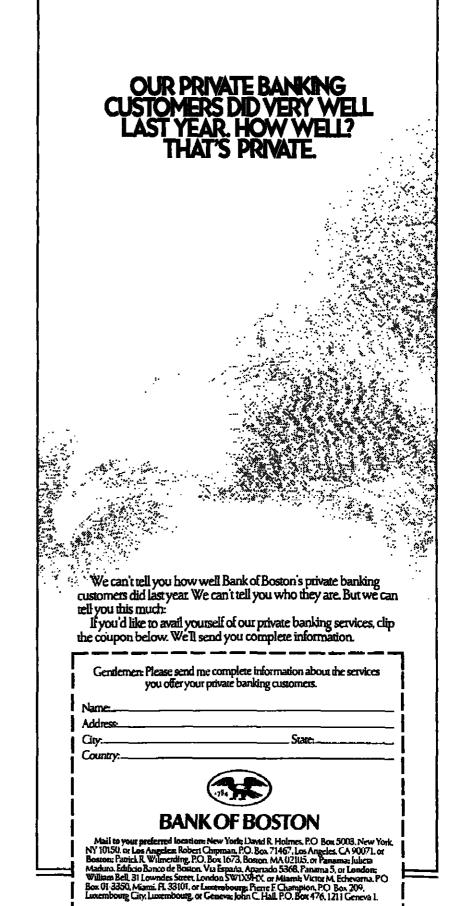

odorant. Instead, he said, they should expect an electoral system "not manipulated by public relations agents" so that they could vote "to improve the country, not to favor multinational financial interests or military-industrial trusts."

Some diplomats and Nicaraguans believe that the Sandinists have not decided how to deal with the question of elections. Independent political analysts said a presidential election might pose a problem because it would require the nine Sandinist leaders to select a single person to lead their party.

The opposition, however, is even more ridden with conflicts. "They can't get together on anything," a Western diplomat said. "They are very divided and disorganized, and the parties are constantly bickering among themselves."

■ U.S. Official Cancels Trip

Langhorne A. Motley, the assistant U.S. secretary of state for in-ter-American affairs, canceled a scheduled visit Saturday to Nicaragua after leaders of the Sandinist government reversed their agreement to meet with him, The Washington Post reported Sunday from Washington. No reason for the reversal was given, a State Department spokesman said.

A Measured Response

To the grievous and persuasive charge of and that enhance security and accountability. unprovoked murder in the air, the Soviet For once, President Reagan and his advisers Union offers three responses:

1) We did not do it, having fired only "warning shots ... along the flying route of the

2) If we did it, that was because the intruding plane could not be identified, behaved for a measured, constructive response. suspiciously and ignored our warnings. 3) We should have done it, because we knew

this was a "pre-planned" American intelligence mission under civilian cover.

In rational discourse, that is a bald and unconvincing tale. No. I evades the evidence and is contradicted by No. 2 which is contradicted by No. 3.

But in the library of Soviet lies, this response is noteworthy as at least an indirect confession of responsibility. Whatever they have discovered about the affair, the Soviet leaders are admitting an unhealthy paranoia about their borders, displaying the aggressiveness born of on which the Soviet Union also depends. An their insecurity, and exploiting a tyranny that leaves them unaccountable to anyone.

That Soviet condition is the tragedy behind the tragedy in the Sea of Japan. Even in legitimate rage over the wanton killings, the United States and other nations need to focus on the fact that enormous power is wielded by a secretive, uneasy and insufficiently accountable regime. Counterstrength and vigilance are obviously essential.

But so are relationships that pierce secrecy,

are showing an admirable understanding of that delicate balance. They have used their impressive powers of intelligence and publicity to pursue the truth and to stir a proper revulsion around the world. Now they are groping

There is no profit in following the Soviet example of warding off demons by shooting yourself in the foot. You do not protect civili zation by breaking off arms control negotiations that could bring the world greater security. You do not pierce the obsessive Soviet secrecy by shunning other diplomacy.

And you do not make the Soviet Union more accountable by drumming it out of the

world community. A measured response requires proper measure of the Soviet offense: a callous attack on innocent international travel and commerce aroused world should now give notice that Soviet aviation and shipping cannot enjoy innocent passage while those of other nations are put at risk by murderously excessive Soviet

security operations. Mr. Reagan appears determined to lead such a campaign even as he persists in wary pursuit of other agreements with the Kremlin. To build on tragedy in such a way is the

Justice in Zimbabwe

A travesty of justice appears to be unfolding in Zimbabwe. For 13 months the government of Prime Minister Robert Mugabe had detained six white air force officers accused of complicity with South Africa in a major sabo-tage incident last year. A black Zimbabwean judge finally acquitted them, ruling that the prisoners' confessions, which constituted the main evidence cited, had been obtained through torture and intimidation and that the men had been denied access to their lawyers.

Mr. Mugabe, who had let it be known he did not believe the prisoners should be freed on technicalities," was true to his word and had the officers rearrested within minutes.

The incident is but one in a series that has cast a cloud over the optimistic expectations that many of Zimbabwe's foreign friends had entertained for it. Mr. Mugabe has come under intense criticism for atrocities that his armed forces allegedly have committed against civilians in tribal areas faithful to the opposition leader Joshua Nkomo.

Mr. Nkomo's own status, now that he has returned from exile, is uncertain. Mr. Mugabe has made no bones of his intention to replace Zimbabwe's multi-party democracy and open economy with a one-party socialist state.

meaning of civilization. - THE NEW YORK TIMES. To be sure, it would be misleading and unfair to see the affair of the officers strictly in the context of internal political developments. Zimbabwe is the very vulnerable target of a brutal destabilization campaign of economic

pressure, political subversion and sabotage be-

ing carried out by South Africa. Zimbabwe has been careful to avoid provoking Pretoria by

harboring guerrillas. Its offense, in South Afri-

can eyes, seems to lie simply in standing up boldly against apartheid and in offering a next-door example of multi-racialism. Unquestionably, Zimbabwe cannot ignore South Africa's ugly contributions to its troubles. Zimbabwe does not lighten its burden, how-

ever, when it responds in ways that erode trust among its constituent races and tribes and that lead its foreign friends, including the United States, to question the basis on which they offer their support. Mr. Mugabe has his own complaints about U.S. policy for having the effect, in his view, of encouraging South Africa "to become more aggressive." He is due to come to Washington later this month to discuss this and other issues. It would improve the prospects of his visit if he found a way, first, to return the officers' case to the courts

— THE WASHINGTON POST.

An Honorable Man

Senator Henry M. Jackson, who died Thursday night at his home in Everett, Washington, showed a consistency and clarity of purpose unusual in politicians. First elected to the House in 1940 and then to the Senate in 1952, he was one of the few members of the current Congress to have served before Pearl Harbor. From those days, Mr. Jackson drew the lesson that freedom depends on preparedness and

He was interested from the beginning in nuclear energy and atomic weapons, and he believed that the United States must never let the Russians gain advantage. That theme runs straight through his service on the Joint Committee on Atomic Energy in the 1940s. It explains the defense commitments he extract-ed for supporting the limited test ban treaty and the conditions he demanded for supporting the first strategic arms agreement — nei-ther would have been ratified without that support — as well as his doubts on SALT-2.

He was interested as well in natural resources and the environment. He turned down the position of undersecretary of the interior in 1950, and he was a force behind environmental laws in the 1970s. As chairman of the Senate Interior Committee, he skillfully balanced environmental and economic interests.

On domestic issues, he started off as "a 100 percent New Desler" and never wavered in his faith that an active federal government could improve the lot of the ordinary person. But he always understood that government could abuse the civil liberties of its citizens. In his first years in the Senate, he stood up to Joe McCarthy when few others dared.

He ran unsuccessfully for the Democratic presidential nomination in 1972 and 1976. But he gained in his career a more elusive victory: Ideas he championed have held up over time. In the last four decades, Americans and their government have generally advanced freedom. increased prosperity and improved the quality of life. In dozens of ways, Henry Jackson served those goals.

In the process, Scoop Jackson remained unpretentious and good-humored. He lived modestly and always gave his outside earnings to charity. He was one of the few public officials in the 1970s to send his children to public schools in the nation's capital. He took on his Senate colleagues and got them to limit their outside earnings. He leaves behind an example of honorable and effective public service, responsive to events but informed by conviction and steadiness of purpose.

-THE WASHINGTON POST.

Other Opinion

The Russians' Worst

The incident exhibits all that is worst in the Soviet system: the morbid paranoia, untruthfulness, obsessive secrecy, and brutal disregard for human suffering resulting from the pursuit of political aims of doubtful value. Arms control talks must continue, since an even higher interest is involved.

- The Times (London).

Tass has admitted that the Russians fired warning shots at the Korean Airlines jetliner. At the same time, it asserts that the airliner's intrusion was a "provocation" and takes a stance of direct confrontation with the Reagan administration. Tass said it is possible to "conduct intelligence activities with impunity by

using a civilian airplane as disguise."

This is outrageously foolish reasoning. - The Yomiuri Shimbun (Tokyo).

The 747 Incident: After the Tragedy, Lasting Damage

WASHINGTON —Soviet explanations notwithstanding, the shooting down of an unarmed South Korean airliner with Americans aboard provides a classic example of how a single, ill-conceived action by the Soviet Union can rebound devastatingly on the American psyche and boomerang on the Kremin.

Instant, grievous damage to those who are committed to negotiations with the Soviet Union already has occurred. And the most intractable hard-liners, who insist that the Russians are beyond trusting, have received an injection of political Adrenalin

beyond the control of the foreignpolicy-making establishment. To a large extent, the climate of public opinion in the United States and the political realities facing President Reagan will shape the response, rather than the advice of diplomatic

Instinctively, President Reagan has positioned himself to run with the tide of outrage - or even whip it higher. By excoriating Soviet behavior as terroristic and inhuman, Mr. Reagan has assured that no one will be able to outflank him on the right - at least in rhetoric.

The larger tragedy is that we are witnessing a revival of passions and perceptions that all too often have frozen the two superpowers into im-mobility. Since World War II the politics of American-Soviet relations has revolved around two conflicting perceptions in the United States. The first is that the Soviet Union, al-

RON...

I'M HUNGRY

though a society with values anuthetical to those of Americans, nevertheless has a government with which it is possible to negotiate, and to work out mutually advantageous, binding agreements. The second is that the Soviet Union, in President Reagan's own words, is an "evil empire" that is prepared to violate every pledge that no longer suits its purposes.

Americans are generally unaware, however, that many Russians have a "devil image" of the United States, and that each country tends to nourish the other's worst suspicious. For as much as the two nations have learned from their global competition, each has a bent for miscalculation, and neither has been adept at forecasting the long-term consequences of their actions on the other.

It is totally improbable that the decision made by Soviet officials to follow standing orders to force down, or shoot down, any intruding aircraft

was made with any realistic understanding of the impact the action would have on U.S.-Soviet relations.

To the American mind, the decision was political madness. But the odds are that from the Soviet perspective, the decision was almost a reflex action, perhaps even with little thought that the arriner had taken off from the United States and inciuded American passengers.

In either case, to the Soviet mind the violation of Soviet airspace in a region of acute sensitivity hits the rawest nerve endings, especially where the United States is concerned. It evokes bitter memories of helplessness and weakness dating back to American U-2 spy plane flights of the late 1950s, when neither Soviet aircraft nor missiles could fly high enough to reach the intruders, or could prevent penetrations of Soviet borders by other American or West-

TLI ANNOUNCE

A COMMISSION

IN THE MORNING

When the Soviet Union takes across that impinge on American sts. Americans assumblin has till til terests, Americans assume that the Kremlin has made a judgment that gives paramount attention to the American stake. But that is by Bo means the way the Soviet system works, nor, for that marter, does the American system work that way. Each nation has its fixations on its own direct interests, its own memories and its own priorities.

In this case, Soviet institutional memory was more likely to have been focused on the humiliating penetration of 1,000 miles of Soviet territory by the South Korean airliner that landed on a frozen lake near Murmansk in 1978. In Soviet eyes, South Koreans are extremely suspect of provocative actions under the shield of American power, and the entry of another off-course South Korean airliner would have made Soviet military commanders bristle with righteous indignation.

But that indignation is more than matched by the American emotions unleashed by the downing of the civilian jetliner last week. Even if the Soviet Union's accusation that the airliner was on an intelligence-gathering mission were true, the Russians appear not to comprehend that Americans, nevertheless, would look on the killing of 269 people as a

The misjudgment is a recurring one. The Soviet Union repeatedly has misconstrued how its actions will rebound on the American scene, especially on matters of propriety, morality and ethics. In doing so, it often undercuts those Americans most committed to negotiations with it.

The greatest misjudgment in recent years, of course, involved the invasion of Afghanistan in 1979. Soviet leaders knew that the invasion was bound to have some repercussions, but that was thought to be a risk worth taking a risk in which any damage could be repaired. Soviet planners were startled, however, Soviet sources subsequently acknowledged, by the crushing damage inflicted on American soft-liners at all levels by the Afghan venture.

It has taken four years to recover only a small fraction of the lost ground in American-Soviet equilibrium, through limited negotiating gains recently achieved. In American eyes, that makes it even more incredible that the Soviet Union would now jeopardize newly won advances.

But this is where the United States misreads the Soviet Union. For in the Kremlin's perspective, the U.S.-Soviet accord on grain sales and marginal agreements on other subordinate issues do not add up to a thaw between Washington and Moscow that must be preserved at all costs.

On the contrary, the Soviet Union is at least as suspicious of the Reagan administration as the administration is of the Kremlin. Two American specialists have un-

derlined this point in a new analysis in Foreign Policy quarterly. The Soviet leadership sees the Reagan administration "as viscerally and profoundly hostile," write Lawrence T. Caldwell of Occidental College, a recent scholar-in-residence at the Central Intelligence Agency, and Robert Legvold, senior Soviet specialist for the Council on Foreign Relations.

they say, "are far more discouraging and potentially dangerous than is understood by many American commentators. The administration's military

buildup, its commitments to ideologi cal struggle with the Soviet Union and its military assertiveness, the authors say, all convince Soviet officials that Washington now rejects "the Soviet Union's right to exist and ... its place in international politics." The Kremlin sees itself as the inno-

cent, aggrieved party in the negotiations aimed at limiting nuclear missiles of European and intercontinental range. As the authors point out, the Russians are convinced that the administration's negotiating positions is a sham, put forward purely for political purposes.

Unless the Reagan administration changes its stance more than seems ikely," they say, there will be no likely," agreement on intermediate-range or strategic nuclear missiles before the 1984 elections. But the shooting down of the

South Korean airliner has overtaken even these pessimistic assessments. It will become immeasurably harder to bring any negotiation with the Soviet Union to a successful conclusion. No agreement that the wisest expert could contrive between the two

superpowers can surmount total sus-picion. But in the climate that exists now, only extremists flourish.

The writer is a diplomatic correspondent for The Washington Post and is working on a book about conflicting Soviet and American perceptions.

1908: Better Than Peter Pan

is the title of Mr. J.M. Barrie's new comedy. It is his master-piece. Even "Peter Pan" must now take second place. It was produced for the first time last night at the Duke of York's Theatre and was a triumph for both the author and the splendid cast of actors who interpreted unheralded. There were no brass bands in were enough to make it one of the theatrical successes of the decade. "What Every Woman Knows" is what is revealed in the last line of the play, that is, that woman was not made out of Adam's rib, but out of his funny-bone.

WASHINGTON — Slowly, but almost inevitably, a new idea is gathering force in Washington; a blue-ribbon, bipartisan commission - patterned after the Social Security, MX, and Central America commissions - to deal with the

enormous federal budget deficit.

The commission idea emerges out of the frightening prospective volume of red ink over the next four or five years, and a recognition that the Reagan administration will not propose, and Congress by itself does not have the political courage, to raise taxes and cut spending sufficiently — at least not until after the 1984 presidential election. One of the most knowledgeable

and influential congressional Republicans, Representative Barber Conable of New York, said candidly that "in one way or another, we are going to have to deal with this issue outside the electoral process." optimism about economic recovery is disguising the real sacrifices the public will eventually be called on to make through tax increases and

social program reductions. "We're a crisis-activated governmental system," he said, "and there's no sense of crisis at this point. Yet the crisis becomes more severe if we don't deal with fiscal imbalance fairly soon."
U.S. and foreign financial markets now must operate on the assumption that politicians will not begin to deal with these critical issues before 1985. Until then, record high interest rates that stifle business-

By Hobart Rowen

The Case for One More Commission

men's incentive to invest will haunt the U.S. and world economies. The bipartisan commission idea

offers some hope that a responsible solution might be put in place as soon as a new or re-elected administration takes office early in 1985. The idea appears to have been floated first by Horace Busby, a business consultant who was an aide to Lyndon Johnson. Mr. Busby, a shrewd political ob-

server, pointed out that given the fairly even division of power be-tween Republicans and Democrats, "anything that comes through the system, anything that is done in Washington, has to be done on a bipartisan basis."

So long as the Republicans control the White House and the Democrats control the House of Repreno longer any place for an obstructionist role on the part of either party. span, who chaired

the successful Social Security commission, used much the same logic in calling for an intergovernmental meeting to defuse the interest-rate time bomb caused by continuing big deficits.

Mr. Greenspan's summit plan, a

variation of a commission proposal, would bring together President Reagan, House Speaker Thomas O'Neill, Senate Majority Leader Howard Baker, and the chairmen of key committees of Congress in a

the purpose of agreeing to a single solution to the deficit problem. Mr. Busby focused on the need to

series of private conferences "for

revamp the tax system (he favors taxing consumption rather than income). A Washington lobbyist, Charis E. Walker, extended Mr. Busby's idea, writing 300 congressional and business leaders on Aug. 15 to describe his plan for a congressionally created Commission on Spending and Taxes. It would report back to Congress in January 1985 with tax and spending proposals to deal with the deficit.

In a telephone interview, Mr. Walker conceded that a blue-ribbon commission was not needed to come up with new ideas on how to cut the budget deficit. "There are plenty of ideas around on how to do " he said. But such a commission, composed of key congressional committee chairmen of both parcouple of distinguished economists and political figures of opposing political faiths, could provide the necessary heat-shield to get unpop-ular measures through Congress.

Is there danger in yet another commission? Is there a risk of a degeneration into government by commission? Mr. Busby and Mr. Walker say no, arguing that with fractionated power, some sort of political truce is inevitable and necessary. And there is nothing new in the commission idea: It was a citizens commission, after all, that wrote the U.S. Constitution.

The Washington Post.

On Labor Day, Labor Is Footing the Bill

passenger plane could possibly learn.
What did the Soviet Union gain by
destroying this plane and killing its
people? It gained the hatred of the WASHINGTON — Lane Kirk-land, the head of the AFL-CIO, likes to paraphrase a famous scene in the World War II movie "Casablan-U.S. cruise and Pershing-2 missiles in Europe at the end of this year. And it disarmed those who had hoped that ca." The protagonists are Rick, an American who runs a raffish cafe in French Morocco, and Louis, a French police inspector who suspects Rick of helping anti-fascists defy the German occupation of France. Here is the Kirkland version:

Louis: "What brought you to Casablanca, Rick?" Rick: "I came here to take the

waters. Louis: "But there are no waters Rick: "Then I must have been mis-

informed. That exchange is brought to mind this Labor Day by the way workers and their unions are being treated around the world. For, in the unwinding of global inflation, labor has emerged as a public enemy. In the communist world, the capitalist world and the Third World as well. huge pressures are being mounted to make labor give back gains achieved

in the period of high inflation.

But the process is a testament to misinformation. Poland provides the most horrible example. Throughout the 1970s Polish leaders curried favor with the workers, by raising wages and subsidizing such basic items as food and housing. The country spent much more than it took in, and foreign borrowing made up the differ-

When West European bankers turned tight in 1980, Polish Communist leaders moved to raise prices on food. There followed the worker protests that gave life to the independent union Solidarity. A year of indecision in Warsaw finally ended with the military coup of Dec. 13, 1981.

General Wojciech Jaruzelski has both raised prices and put the pressure on Solidarity. The union has been contained, if not crushed. Nobody in the ontside world is exactly

By Joseph Kraft

happy. But those with big stakes the Russians, the pope and the European bankers - rather than trust Poland to Solidarity, prefer to leave it to General Jaruzelski. Mexico and Brazil bring evidence from the Third World. In both cases,

ruge foreign borrowings were used to finance rapid economic growth. Unionized workers were the chief beneficiaries. Their wages rose, and they also profited from subsidies that kept such basics as food, housing and health care below cost. Last summer, the string ran out on

foreign borrowing. In the reckoning, both Brazil and Mexico have cut back - at the expense of the workers. In Mexico, wage increases are being held to less than half of the inflation rate for this year. In Brazil, the government is proposing, and the unions are resisting, a project that would limit wage increases to 80 percent of inflation. If the Brazilian generals cannot sell the program, then the whole package of measures taken to rescue the international financial system will come apart.

Lastly, there is the case of the United States. To an extraordinary extent, labor has paid the price of the wring-ing-out process that preceded the current recovery. Uncamployment hit new highs, particularly in such heavily unionized industries as autos, steel and chemicals. Wages lagged well behind inflation, and in many cases, there were actual givebacks by workers to management.

As the economy gains strength, labor is digging in against further concessions in wages, iringe benefits, work rules and job security. Big strikes have already hit the telephone company, Continental Airlines, Phelps Dodge and Consolidated Edison in New York. A larger test will come later on in the auto industry. But one lesson is already clear.

paid to discipline workers. In the communist world, basic human rights, and maybe even international security, have been put at risk. In the Third World, the whole international financial structure has been put at hazard. The United States and Europe have been able to check labor only by high unemployment, with an

attendant souring of the political and social climate. No doubt it is of critical importance to keep wage bargains in coher-ent relation with economic growth and inflation. But anybody who thinks the world has found how to reach that goal has to be considered,

in Rick's phrase, misinformed. Los Angeles Times Syndicate

U.S. Agency Toughens Standards on Eligibility For Legal Aid to Poor ach nation was in indicate their case Series in the set of the series in the set of the series in th

By Robert Pear New York Times Service

in this case, Soviet issued in the humbard WASHINGTON — The Legal Services Corp. has issued new rule that would make it substantially more difficult for poor people and the elderly to obtain legal representation subsidized by the federal government.

The rules, issued last week, American power and the coiher off-course South and coiher off-course South and coiher off-course made to the coiher off-course made to the coiher off-course made to the coiher off-course would tighten the eligibility criteria defining maximum meome and assets for people who seek legal aid. The corporation described the changes as "significant" and said they were essential to make sure that the assume imited funds went to the needlest people.

Three times, President Ronald Reagan has proposed abolishing the corporation and ending the use of federal money for legal aid to poor people in noncriminal proreedings. Congress voted to keep the agency alive, but reduced its budget by 25 percent, from \$321 million in the 1981 fiscal year to \$241 million a year in 1982.

The mirudgment is a man and the The Soviet Union man and the Soviet Union man and the American and American a The rule of most concern to the elderly says that an otherwise eligi-ble applicant may be denied legal state of matters of property assistance if he or the has more than \$15,000 equity in a home. The equity value is defined as the fair market value of the property minus

U.S. Libertarians Pick a Hard-Liner To Top '84 Ticket

NEW YORK - The Libertarian Party, third largest in the nation, has given its 1984 presidential nomination to David Bergland, an anti-government activist who is considered a hard-liner even by the Libertarians' stern standards.

Mr. Bergland, who squeaked to a majority on the fourth ballot at the party's national convention Saturday, pledged to hold true to the party's unyielding platform, which calls for legalizing all drugs bringing all U.S. troops and wespons home from overseas, and abolishing the Central Intelligence Agency, the Internal Revenue Service, the national parks, and the public

The nominee, a lawyer from Costa Mesa, California, laughed off a suggestion that the party should moderate its stand in order to win the support of voters aligned with the major parties. "What reasonable person," he asked, "could take the Republicans or Democrats seri-

In choosing Mr. Bergland, 48, from the more pragmatic approach of their 1980 presidential nominee, Ed Clark. Mr. Clark, on the ballot in all 50 states and the District of Columbia, won 920,000 votes, just over I percent of the total.

the amount owed in mortgages and

Of the people classified by the Census Burean as heads of households, 70 percent own homes, and many houses bought long ago are worth more than \$15,000. Eric A. Shulman of the National Council of Senior Citizens, a private nonprofit group, said, "This rule would limit seriously the opportunity of many low-income elderly persons to obtain legal representation."

The policy of the Legal Services Corp., established five years ago, is that a family cannot receive federally subsidized legal aid if its income is more than 25 percent above the official poverty level. The maximum income allowed for a family of three is currently \$10.275 a year. The new rules continue this policy, but redefine income to include goveriment benefits formerly exclud-ed from eligibility calculations.

In computing an individual's in-come legal aid lawyers have usually disregarded welfare payments and various benefits for the aged, blind and disabled.

The new rules, however, supulate that income from federal benefit programs must be counted because "the purchasing power of dollars is the same whether derived from a government check or a pay-

John C. Meyer, deputy general counsel of the Legal Services Corp., said the public had until Sept. 28 to comment on the rules and that the federal corporation could revise them to take account of such concerns. Congress could also try to block or alter the rules through

Under the rules, all the income of people living in one household is assumed to be available to a person seeking legal aid. Critics of the rule said this provision could disqualify retarded people living with their parents and elderly people living with their children.

Paul A. Marchand, an official of the Association for Retarded Citizens, a private nonprofit group, said: "There are thousands of mentally retarded people who have no option but to live with their parents because they don't have the resources to live on their own. The new rules penalize them."

nonprofit group, said, "The rules seem to contravene the purposes that the Legal Services Corp. was set up to achieve: providing needed legal services to low-income peo-

farmers and migrant workers."

Married Priests Convene, Seeking Return to Ministry

By Henry Kamm New York Times Service

CHIUSI, Italy -About 50 Roman Catholic priests from six countries, many with their wives and some with their children, gathered here last week for what they called the first international synod of married priests.

Debating with theological fervor in four living languages, with occasional recourse to Latin, the priests and their wives drew up a list of requests and grievances that they will present to the Vatican in the hope of submitting it to Pope John Paul II and the bishops of their countries.

The priests' main request was that the church, which has suspended them from all priestly functions, restore them to the ministry. The statement, which urged that their readiness to serve not be rejected, emphasized the continuing decline in the number of priests as well as the drop in young men choosing the vocation. The grievances revolved about

the suffering of men who find themselves in the quandary of loving a woman while committed to a vocation that excludes physical love. Particular pain was expressed by, and on behalf of, priests who have petitioned the pope for dispensation from their vows of celibacy, which automatically also means removal from the ministry, and have received no re-

Since Pope John Paul II was elected in 1978, said Giustino Zampini, who received a dispensa-

requests have been acted upon. Although no reliable statistics on incelibate Catholic priests are available, Mr. Zampini said 7,000 requests remained without answer. Mr. Zampini founded the Italian Union of Catholic Priests With Families, the organization that sponsored the synod here. Most of those priests have left

their ministries in anticipation of papal permission to marry. An even greater number have married without asking for dispensation. In all cases, priests questioned here said, the men and their wives, most of whom are still practicing Roman Catholics, suffer the anguish of an awareness of sin that only papal dispensation can re-

Even with dispensation, at the beginning of my new life I felt mutilated and made to feel guilty," said Pierre Lautrey, who has been married for 30 years.

"This 'celibatocracy' is a deval-uation of women," said Julio Pérez Pinillos, a former priest from Madrid. "It says in effect that celibacy makes you better than matrimony. Why should celibates define the norms of morality for others?"

Mr. Pinillos, who is 42 and has a daughter, met his wife, a psychologist, while both worked in a factory so that they could be closer to the working class. He continues For all the participants ques-

tioned, the meeting meant a step out of isolation and anonymity.

"to spare my superiors embarrass-ment," said Dutch bishops gener-ally know that many of their say publicly that we have been unjustly punished makes the synod important," said Heinz Vogels, a West German who announced his belief in optional celibacy in a book in 1978 before marrying

Canadian Conservative Wins Big Step in Drive For Prime Ministership

By Douglas Martin New York Times Service

TORONTO -- Promising to build a "brand-new Canada," Brian Mulroney moved a big step toward his goal of becoming this nation's next prime minister by winning a landslide victory Aug. 29 in his first bid for a seat in Parlia-

The Progressive Conservative Party leader defeated his Liberal Party opponent, Alvin Sinclair, by a 2-to-1 margin in a Nova Scotia legislative district. Mr. Mulroney, a former businessman, told supporters that the victory represented a "massive repudiation of the Liberal

He added, "There is no longer any such thing as a safe Liberal seat in Canada." The Conservatives were further

encouraged when their candidate, Gerry St. Germain, easily defeated his New Democratic Party opponent in a British Columbia district. Mr. St. Germain won by more than 3,000 votes, after losing by 4,500 in the last election in 1980.

The victories come while the Proeressive Conservative Party is riding high, with 55 percent voter support in the most recent Gallup poll, compared with 27 percent for the Liberals and 16 percent for the New Democrats.

Since the last general election in February 1980, the Tories have won four federal by-elections and the New Democrats two: the Liberals have not won any. After last Monday's results, the Liberals hold 147 seats, the Tories 103, the New Democrats 31, with one member unaffiliated to a party.

Mr. Mulroney's victory over Mr. Sinclair, 18,882 votes to 7,828, met expectations that Mr. Mulroney would win by a large margin. Al-though Mr. Mulroney, who had never before run for public office, had said he would be happy to win by just one vote, political analysts had said only a large victory would sustain the Tories' momentum.

The Liberals had testified to the importance of the Nova Scotia race by sending 11 cabinet ministers

there to oppose Mr. Muironey.
"We were really doing well." Mr.
Muironey said, "but when the people of Central Nova got a real good look up close at 11 cabinet ministers, our majority shot right up to the sky. If Pierre Trudeau himself had come down, they wouldn't have got a vote." ministration, which approved the with further expansion expected

Mr. Mulroney's victory adds to the confusion over the future of the Liberal Party, whose leader, Prime Minister Pierre Elliott Trudeau, is now visiting Greece. In his absence, top-level Liberals have openly suggested that Mr. Trudeau will soon

be resigning.
Mr. Trudeau does not have to tion will be held in the spring.

Then, an election would be called later in the year.

The Liberals expressed concern over the implications of the Tory leader's sweeping victory.

"We did not need Mr. Mulroney's election to tell us we have to do something to improve either the substance of what we're doing or the way in which we communicate it to the public," John Roberts, the Employment Minister, said.

The New Democrats may also be thrown into a leadership tussle by their poor recent performance against the Tories. Dissatisfaction with the leadership of Ed Broadbent is growing in the face of the party's second consecutive loss to

Micronesia States Ratify U.S. Pact

KOLONIA, Ponape - The Federated States of Micronesia has become the first of three governments in the Trust Territory of the Pacific to ratify a Compact of Free Association with the United States, according to the FSM Information

Congress of the Federated States of Micronesia came after the Ponape state legislature voted 17-2 to disapprove the compact earlier Friday. The Reagan administration is expected to submit the compact to the U.S. Congress for ratification later this month.

The Truk, Yap and Kusaie legislatures had approved the compact, fulfilling the constitutional requirement of the Federated States of Micronesia for three of the four states. In a plebiscite June 21, 79 percent of the federation's voters approved the compact.

LETTERS TO THE EDITOR

The Japanese Approach Regarding "School System in Jaand is not in the second that the second to the second the second to the pan Promotes Rapid Learning" (IHT, Aug. 3) by Edward B. Fiske:

As an American high school student, I was very interested in your series on Japanese education. Although there are several things we can learn from the Japanese

system, such as the importance of higher pay and respect for teachers, and better discipline in the classroom (many American parents have left this to the teachers), I. believe U.S. educational methods result in sounder minds and betterrounded individuals. First of all, U.S. "tracking" of students lets each student study at his or her own pace. There are fewer things worse than being bored in a class of . slower students, or, on the con-trary, being left chapters behind by brighter ones.

Secondly, it seems to me that THE STATE OF THE S there is a relative ethnocentricity to apanese methods and curriculum, as is evident by the apparent lack of foreign language instruction. Third, and most important, the mianese educational system measures memory, whereas critical thinking and writing skills, such as those

ceptual knowledge. is not who solves mathematical problems fastest or earliest in life, but who knows the reasoning and mathematical principles behind computations.

DONALD J. PLANTY JR.

Aquino's Death

Regarding "Marcos Opponent Slain in Manila as Exile Ends" (IHT, Aug. 22):

Senator Benigno Aquino was a believer of the Gandhian philosophy of nonviolence who wanted only to convince President Ferdinand Marcos to send the generals back to the barracks and allow a return to a democratic system. He believed that violence would cost the Filipmos too much blood. He went to Manila in answer to the call of the united opposition to lead the country back to a bloodless transition. Mr. Aquino was a profoundly

religious man and a settless patriot. His murder is symptomatic of what is wrong with the Reagan adpicking, rote orientation of the Jap- ministration's simplistic and shortsighted foreign policy. A policy of praise and flattery such as that heaped upon Mr. Marcos by Presilaught in the United States, mea. dent Reagan can only encourage

sure understanding and true con- the creation of violent dramas such as those in Iran, Nicaragua, El Sal-What should be important to us vador, Chile and Argentina. U.S. foreign policy should be geared to the aspirations of the Filipinos, not of their dictator.

TOMAS F. CONCEPCION, Philippine Christian Democratic Party. Rome.

If Talleyrand had been alive to-

day he could justly have repeated his saying: It was more than a crime. It was a mistake. KRISTER KUYLENSTIERNA.

Johanneshov, Sweden. Regarding "The Aquino Killing: Cancel Mr. Reagan's Visit" (IHT,

Aug. 24): The New York Times editorial on the murder of Mr. Aquino states, "He was shot, at point-blank range, as he was escorted from his plane by security guards."

A slight change in punctuation would produce this intriguing statement: "He was shot at pointblank range as he was escorted from his plane, by security guards." EDWARD DORSON.

Gilleleje, Denmark.

Critics Reviewed Regarding "Salzburg: Mozart Phys., Pavarotti Fever" (IHT, Aug.

9) by Martin Bernheimer. Mr. Bernheimer's approach to criticism occasionally exceeds the boundaries and ethics of his task. A case in point is his entirely gratu-

itous (indeed, one might say spiteful) attack on Madelyn Rence in a critique of the Salzburg Festival. Mr. Bernheimer makes note that the smaller roles "prove less successful" and cites borderline performances by William Lewis ("dry and throaty") and Timothy Jenkins

"("not quite ... right"). In Ms. Renee's case, however, he states the following: "Nepotism raises its pretty head in the form of Madelyn Renee, Pavarotti's ubiquitous pro-tégée, who turns up here as a Cretan woman."

Since absolutely no mention is made of Ms. Renee's singing, one is left with the distasteful assumption that Mr. Bernheimer believes she is not in Salzburg for artistic reasons. Nepotism is a mean charge in-

deed and when it is raised as an issue demands considerable substantiation. Mr. Bernheimer fails this task utterly, leaving readers with the sense he's trying to min two reputations at once.

FRANK GORREL

Regarding "... And an Objection to Its Way" (IHT, Aug. 12) by Judith Mara Gutman: Judith Mara Gutman's review of

Leni Riefenstahl's recent photographic works seems a chumsy. transparent hatchet job. So Ms. Riefenstahl had her flirtation with the Hitler days. Germany is awash with fat cats who were

up to their necks in far worse Nazi

activities who have since found "respectability." Ms. Gutman criticizes Ms. Riefenstahl for "worshiping" the human form and making it "lifeless." God help Rodin, Michelangelo and Leonardo had Ms. Gutman been

around in their day. When she says that Ms. Riefenstahl's pictures of natives covered with gray paint look as if they were "molded out of clay" she gives herself away. That is exactly what makes the pictures so memorable.

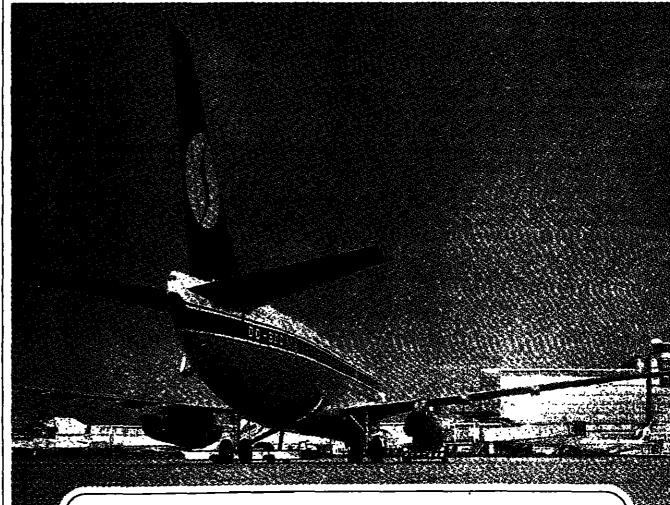

Has she not the slightest idea as to why Ms. Riefenstahl's early films "Triumph of the Will" and "The 1936 Olympiad" have remained timeless teaching examples despite their blatant propagandistic nature? It is due exactly to Ms. Riefenstahl's fascination with the human body and its energies.

CHUCK PAINTER. Monastir, Tunisia.

The U.S. Interest Regarding "The National Inter-

est" (IHT, Aug. 28 and 29): It was a great satisfaction to read these articles. Marcus Raskin should represent the United States at the United Nations Security Council in order to regenerate the prestige of his country.

ALEXANDER VON DOLGOW. Würzburg, West Germany.

Banks Scrounging for Ways to Make Interest-Rate Swaps More Attractive

ONDON — The magic of interest rate swaps is wearing thin, and banks that like to arrange such financings are scrounging for new vays to make them work

When rate swaps blossomed into popularity lest year, they seemed like a confidence game without victims. One party, usually a bank, issues inted-sate bonds. A counterparty, whose credit rating is too low to tap the Eurobond market-passes a floating-rate loan. The first party then swaps its finite sate passeds for the counterparty's lighting-rate funds. After hagging over how to share the combined interest-rate burden, both parties and up with the kind of funds desired at a lower rate than otherwise available.

It's the simplest and most use Eurobond Yields ful financial tool that's come along For Week Ended Aug. 31

Inft Inst. In term yen
ECU medium term - in a century, I think," said a swap specialist at a New York in-

So why does the Eurobond market cringe at every announcement of another rate swap by a Japanese bank? Because, bankers say, such swaps have been so frequent this year that they have all but exhausted the market's appetite for bank

Last week's \$85-million issue from Lone-Term Credit Bank of Japan was a good example. The seven-year bonds came to market Cadel seven-year bonds came to market Cedel. 8,3947 7.2982 1,0965 with a coupon of 12% percent, de Euroclear 13,025 12,478.6 543.9 scribed all around as generous. By -

Friday, the bonds were trading at about 98, yanking the yield up to 12.95 percent and suggesting that some of the managers had more than passed on their commissions and were dumping the paper at a loss.

Despite the sluggish demand for such issues, bankers say, the Japanese Finance Ministry constants to encourage Japanese banks to use swaps to refinance their dest. The Japanese have done so to the hilt and may have

Market Turnover

For Week Ended Sept. 2 (Millers of U.S. Dollars)

Total Detter Equivalent

For one thing, portioned are bussing with bonds issued by banks at a

time when many investors are worried that the Third World debt mountain might crush some of the weaker institutions. For another, swaps are becoming more difficult to arrange. Counterparties wanting to swap into fixed rate-debt are becoming harder to find. Most want to wait Meanwhile, because bank paper has glutted the market, banks can no

longer command the bargain-basement rates of last year. One American banker said that 18 months ago a bank with an average credit rating could borrow money at 40 to 50 basis points (or hundredths of a percentage point) below the London interbank offered rate by using a swap. Now the average bank would pay a rate about equal to Libor, and some are paying

as much as 25 basis points above.

At that price, the bank might find it more attractive to use the traditional route of issuing floating-rate notes.

So swaps may be acaroer in the months ahead. But banks that have

made swaps a speciality — such as Salomon Brothers, Morgan Stanley and Credit Suisse First Boston — say the idea remains valid. "They're certainly not going to go away," said P. Joan Beck, head of the

new issues department at Morgan Stanley International. Bankers do disagree on how much potential there is for extending the trick: Karl Miesel, new issues chief at Deutsche Bank, said the glut of 11.79 percent from 11.96 percent.

Laker Polishing Plans — and Waiting

By Agis Salpukas New York Times Service

NEW YORK - Right now it is only a paper airline. It is called Laker II and it exists only in the mind of Sir Freddie Laker — and

in his Apple computer. "It is updated frequently," he said during a recent visit to New York, "with new fuel prices, new developments in airplanes and fares and things like that."

For Sir Freddie has dreams of starting another airline to replace the one that went under in February 1982 - Laker Airways, which pioneered low fares across the Atantic to the consternation of established carriers.

While he waits for the dreams to become reality, he is operating two companies — a charter flight business between New York and London and a package-holiday tour business between Britain and the Mediterranean — that he hopes will eventually make Laker II pos-

12.52 %

13.52 % 13.31 %

7.84 % 12.03 %

When those businesses build up a big enough customer core to fill four airplanes a week, he said, he plans to try to reapply for route icenses, buy or lease a couple of planes and get "back in the airline business. We can't get away from the fact that we are airline people."

As for the financing necessary to start a new airline, Sir Freddie says: "I have had many, many offers to buy and lease airplanes. I go three offers a week."

But making a go of a new airline is not likely to be easy. Sir Freddie would be re-entering a highly competitive market that is still plagued by overcapacity, despite this year's dramatic recovery in travel from the United States to Europe as a result of the dollar's strength.

"It would be very difficult to break into this market." Eliot Fried Jr., airline analyst for Shearson/American Express Inc., said. "It's unlikely that he would have a price advantage even with his own aircraft, because other carriers would match his prices as they did before

It was the matching of Laker's low fares by such major carriers as Pan American and Trans World in the autumn of 1981, after Sir Freddie tried to attract business customers, that contributed to his airline's eventual downfall.

Laker's failure has left a mass of debts and complex litigation. The liquidators, Touche Ross of London, filed an antitrust suit in the United States charging that Mc-Donnell-Douglas Corp. and a group of airlines conspired to fix prices and took other anti-competitive actions to drive Laker out of

But Sir Freddie has taken pains to remain above the fray. In an interview in New York, where he (Continued on Page 11, Col. 5)

Sir Freddie arrives for 1982 talks with U.K. officials.

Brazil Creditors Are Worried by Langoni's Move

By Kenneth N. Gilpin New York Times Service

NEW YORK - Brazil's commercial bank creditors reacted with surprise and concern to the announcement that the country's central bank president, Carlos Geraldo Langoni, had resigned.

However, the chairman of a bank advisory group that is over-seeing the rescheduling of some Brazilian debt said Friday that he did not expect a slowdown or interruption in the talks with Brazil

The International Monetary Fund is detailing economic conditions for Brazil under a reconstructed loan package Mr. Langoni, who was Brazil's third-ranking economic official, characterized these conditions as "unrealistic" and resigned Thurs-

An IMF spokesman in Washington would not comment on Mr. Langoni's resignation or on the IMF conditions. Details of the new IMF proposal have not been made

One banker said, "This surprised everybody," and added: "At

pect the decline to be so large."

Thursday's meeting, no one gave any indication that they knew he was about to jump. This doesn't seem to bode well for Brazil."

The banker was referring to the most recent meeting of the bank advisory group, held in New York. Bankers said a presentation to American regional banks was scheduled Sept. 12, followed by another advisory group meeting the

next day.
"Critics of the fund program in Brazil have been saying that the fund conditions are too harsh," the banker said. "Now they can point to someone in the government who agrees with them."

In a statement, William R. Rhodes, chairman of the bank advisory committee for Brazil, took a more optimistic view.

Mr. Rhodes welcomed the ap-pointment of Alfonso Celso Pastore as the new president of the central bank: "Mr. Pastore is well known to the international banking community as a highly respected public finance professional. We expect to work cordially and efficiently with him in his new capaci-ty, as we did with Mr. Langoni."

But other bankers viewed Mr. Langoni's resignation - and the U.S. Bond Market Rallies on Money-Supply Drop reasons for it — with a sense of

foreboding.

"A lot of people are talking about a moratorium down there, one banker said. "This makes me more nervous than I was before."

In his statement, Mr. Rhodes tightening measures will have to be said that he had been informed by taken in September, said Wayne D. officials in the Brazilian government and the IMF that an agree-ment on the revised program would be announced soon. Banking sources, who had expected the announcement this week, said it could come in the next 10 days.

In São Paulo, some bankers seemed to shrug off the resignation. "It would be a different matter if it had been Delfim who had resigned," a senior American banker said, referring to Antonio Delfim Netto, the planning minister.

Mr. Deming attributed his opti-mism to his belief that the econom-■ Brazil Devalues Cruzeiro Brazil devalued its currency, the ly from the rate of the second cruzeiro, 2.1 percent Friday against quarter and that "inflation has the U.S. dollar, United Press Interbeen reasonably well tamed and national reported from Brasilia. New home Great Plains, communities are of the recovery. That's when two of sales began to pick up in the first quarter and by midyear they had registered an improvement of 45 percent over the corresponding 1982 period. "We've just had a ternific July and August," said Stanley Malkoff, co-owner of Homes by

The nationwide recovery in automobile sales has been the savior of the Mahoning Valley. General Motors' Lordstown assembly plant, the showcase of the industry when it was built in the late 1960s, is turning out Pontiac Sunbirds and Chevrolet Cavaliers full tilt. More than 8,700 employees are at work, 3,400 of them recalled since March.

Higher employment is the stuff that the Youngstown housing re-covery is made of. "We're seeing a lot of younger professional people, electrical engineers, who have been on the job for five or six years," Mr. Malkoff said. "They feel a lot more secure now that they see people coming back to work."

Low-interest loans, provided by the state, are also enticing buyers

The recession was tough on Bu-chanan, Michigan, and the recovery is not likely to begin to improve things until the beginning of next year. That is when four small companies with a total of 200 jobs, lured by tax abatements and other inducements, are scheduled to factories. Meanwhile, the unemployment rate is about 18 percent.

Eight decades ago Buchanan became a corporate-headquarters town and a center for manufacturing jobs when the city fathers offered free rent and cheap power to hure from Chicago the small company that later became Clark Equipment Co.

It is a town of 5,136 that once harbored 3,000 jobs at its Clark plants. The last 600 were lost over puter repairman for Radio Shack.

U.S. Reports Fall In Oil Reserves The Associated Press

WASHINGTON - U.S. oil reerves declined by 5.3 percent in 1982, ending two years of relative stability and resuming a downward trend of previous years, the Department of Energy reports.

The department estimated in a report released Friday that proven reserves of oil as of Dec. 31, 1982, totaled 27.9 billion barrels, down from the 29.4 billion barrels the ear before. Proven reserves are those expected to be found and produced under existing economic and operating conditions.

LOS ANGELES (LAT) — MGM-UA Entertainment Co. has sued a major European film distributing company, seeking almost \$1 billion in damages for alleged antitrust violations.

The suit, filed Friday in U.S. District Court in Los Angeles, accused Taurus-Film of Munich; its chief executive, Leo Kirch; and its U.S. business agent, the Los Angeles attorney Milton A. Rudin, of conspiring to restrain trade and fix prices in television distribution of American films and programs in German-speaking countries.

The suit also accused Taurus, Mr. Kirch and Mr. Rudin of interfering with a business relationship between MGM and Deceto Film, the business

with a business relationship between MGM and Degeto Film, the buying arm of a West German television network, by causing Degeto to pull out of a distribution arrangement with MGM.

Continental Air Said to Ask Pay Cut

LOS ANGELES (LAT) - Continental Airlines Inc., the eighth-largest U.S. air carrier, struggling to reduce labor expenses and curb mounting losses, has asked its pilots to accept a 27-percent cut in pay and reduced

retirement benefits, according to sources close to the situation.

At a meeting Wednesday in Houston, key company officials gave pilots' representatives until Sept. 15 to respond to the proposal, which would also require each pilot to fly 16 more hours a month, the sources said Friday. They said that change would result in the layoff of 340 of Continental's 1,400 active pilots.

"We won't concede to this damn thing," said one Continental pilot. "A few months ago, Continental pilots already agreed to pass up pay raises amounting to 20 percent of our pay."

UAW to Reopen Talks With Chrysler

DETROIT (Combined Dispatches) — The president of the United Auto Workers union, Owen Bieber, has moved to reopen contract negotiations with Chrysler Corp. after having been told by Chrysler's chairman, Lee A. Iacocca, that the company would make a new proposal acceptable to Chrysler workers.

Mr. Bieber said Friday that he had asked the union's Canadian and U.S. negotiating committees to meet with company negotiators as soon as possible. A UAW spokesman said that the Canadians might meet as early as Saturday but that the U.S. negotiators likely would not meet until Monday. Talks between the two sides broke off July 27.

Meanwhile, the trade publication Ward's Automotive Reports said Chrysler and its Japanese partner, Mitsubishi Motors Corp., were discussing U.S. production of a Mitsubishi-designed minicar by 1986. A Chrysler official confirmed that Mitsubishi was studying such a project.

More Banks Seen in Nigeria Package

LONDON (Reuters) - A further 30 to 35 banks are expected to refinance Nigerian trade debt arrears of about \$500 million this month, expanding a \$1.4-billion refinancing program agreed upon in July, eccording to banking sources.

Terms will be identical to those on the earlier accord, signed by 25 banks, the sources said Friday. The original estimate for relinanced arrears from confirmed letters of credit was \$1.6 billion.

SG Warburg and Co. is arranging the additional refinancing, with Barclays Bank International as agent. The transaction effectively turns the arrears into a three-year loan, with principal repayments delayed until

Spotlight Cable May Be Dissolved

LOS ANGELES (LAT) — The four large cable television operators that own Spotlight, the fifth-largest U.S. pay-TV service, are considering dissolving the venture and shifting its subscribers to other services.

Although no decision is expected before a mid-September meeting of the partners, "I would say that the outlook is not favorable for continuing," said Kenneth L. Bagwell, cable division president of Storer Communications Inc. of Miami.

Spotlight was started in May 1981 by the Los Angeles-based Times Mirror Co. In December 1981, Cox Cable Communications Inc., Tele-Communications Inc. and Storer joined the venture.

Hearing Set on Sale of Manville Unit

DENVER (AP) — A U.S. bankruptcy judge in New York has scheduled a Sept. 13 hearing on Manville Corp.'s proposed sale of Johns-Manville Canada Inc. for \$117 million to a group headed by Peter D. Kyle, chairman and chief executive officer of Johns-Manville Canada. A spokesman for the Denver-based asbestos and building supplies manufacturer said the judge must approve the sale of the company, which owns the Jeffrey asbestos mine in Quebec.

On Aug. 26, 1982, Manville filed for protection from its creditors. Under U.S. bankruptcy law, all Manville transactions must be approved by the court.

Stromberg-Carlson, Mitsubishi Deal

LONDON (Reuters) — Plessey PLC said its Stromberg-Carlson Corp. subsidiary and Mitsubishi International Corp. have agreed in principle to form a joint venture to market cellular mobile telephone systems in the United States.

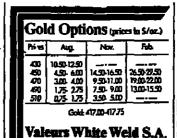

The venture's cellular system, Astromet, will use Stromberg-Carlson's digital switching technology and Mitsubishi's radio frequency equipment, mobile telephone transceiver and data links, Plessey said Friday. Mitsubishi International is the U.S. subsidiary of the Mitsubishi Corp.

r a New Airline

Aviation guarantee some of Laker's debts, buying and he said.

The plunge has left him poorer in money but richer in understanding, the Berlin he formed Sir Freddie says. l, carrying

"I don't need a Rolls Royce," he said, his tall, heavy frame stretched out on a conch. "After all, it's only a motor car. The Volkswagen does eging direc-lirways. In the job very well. I can only sleep in one bed at night and I can only eat once a day at most or otherwise I get too fat. The main thing is I'm working and I needed to work. I enjoy it. It's fun."

And he has learned some lessons d was con- on the way down.

"I think every businessman in his life should have one day in his life to see what it is like coming down," he said. "Going up is easy. You meet all sorts of people. But I assure you, when it takes two to three years to get to the top and minutes to get to the bottom, the faces you meet on the way down are different. You really see the human race eat where I at its best on the way down. It's absolutely unbelievable. Unbelievable. now gone, able. Some of the things that have used to pay happened to me and the kindness es made to of some people is beyond belief."

BOOKS

THE CANNIBAL GALAXY

By Cynthia Ozick. 162 pp. \$11.95.

Reviewed by Michiko Kakutani

WHEN we first meet the middle-aged bachelor named Joseph Brill, he is presid-

ing as the rather sour principal of a small primary school in the Middle West. Like so

many of Cynthia Ozick's characters, he spends

much of his time alone, and he is alone because

he is guilty of hubris. He has not only allowed

intellectual pretensions to calcify his heart, but

he has also committed what Ozick seems to regard as one of the worst sins of all - in

creating a rigid, self-referential system of edu-

cation and worshiping something other than God, he has broken the Second Command-

Idolatry and the complicated relationship between the creator and the thing created has been a favorite subject of Ozick's fiction and

essays; and in her new novel, "The Cannibal

Galaxy," she examines its implications in

terms of both art and human relationships.

Although she once wrote that "it is insulting to

a poet to compare his titanic and agonized

strivings with the so-called 'creativity' of child-

bearing where - consciously - nothing hap-

pens," she appears to be fascinated by people's

continual attempts to "create" their children,

to turn them into flesh-and-blood works of art,

invested with their own hopes and expecta-

Such brief summations tend to leave the

impression that "The Cannibal Galaxy" is one

of those willfully recondite novels that focus on

metaphysics at the expense of narrative, character and language. It isn't Dense with ideas and philosophic speculation, "The Cannibal Galaxy" is also an organic and beautifully told

story of one teacher's attempts to discover his place in history and the meaning of his voca-

Ozick has a distinctive, idiomatic voice, at

mal excellence, she observes that Brill finally decided to marry an "unreasonably tall" wonan - "he was drawn to heights of every kind" Brill is "a melancholic, a counter of losses" A French Jew who grew up in Paris, the son of a fish-store owner, he attends the Sorbonne. where he learns to worship "serenity, absorption, civilization, intellect, imagination. During World War II, Brill is saved from history by a group of nuns who hide him in the basement of their convent. There, in his damp, smelly dungeon, he discovers a cache of books, and the books - a motley assortment that includes everything from catechisms to Corneille give him an inspiration. If he survives the war, Brill thinks, he will found a school based on a marriage of Hebrew and European Enlighten-

ment cultures, the fusion of "the civilization that invented the telescope side by side with

the civilization that invented conscience -

astronomers and God-praisers uniting in a majestic dream of peace." Years later, with the blessings of a rich patron who wants to snare "the high muse of Enrope," Brill establishes his school on the banks of one of the Great Lakes, and as a teacher dreams of becoming "not so much a schoolmaster as a man of almost sacral power. . . . The world rests on the breadth of the children in the schoolhouses - this fragment of Talmud feathered his spirit like a

frond from a tree in deep warmth. Instead of achieving a synthesis of two great cultures, however, his school seems to special-ize in mediocrity. Brill suddenly sees "himself in the middle of an ashen America, heading a school of middling reputation (though he pre-tended it was better than that), beleaguered by middling parents and their middling offspring." Frustrated in his attempts to find a :prodigy — that one special child whose talents he can nurture and mold — Brill himself begins television set, "stupefied by Lucy, by the tiny raspy-voiced figures of the Flintstones; by the panic-struck void."

Then, one day, Hester Lilt, a formidable woman who has achieved intellectual celebrity as an "imagistic linguistic logician," arrives in Brill's life and enrolls her daughter, Beulah, in his school. Infatuated with the mother's air of seriousness and disdain, Brill remains oblivious to the daughter's gifts. She falls through a hole in his school's carefully constructed system, and he dismisses her as ordinary, as dim, as remarkably unexceptional. In doing so, of course, he makes a great mistake - a mistake, as Ozick reveals through several swift cranks of the narrative machinery, that will reveal the narrow solipsism of Brill's own life and mind.

OverCALLING in a minor suit at the level of two is something most players do much more often than they

EROS MEATY

Even if the vulnerability is favorable, making a penalty double unattractive for the opponents, there are various dangers. The bid will often offer the opposition useful clues in picking a contract and in deciding the best line of play.

On the diagrammed deal, North-South, if left in peace, would probably have found their way to three no-trump. This would hinge on the opening lead: West would certainly the spade ace and East the choose the diamond king with decisive effect, although East, it is true, might do the wrong

cate path to four spades. This he made the normal play of is the best contract, but South is in danger of losing control of the trump suit. West led the diamond king,

and South had to take the ace for fear of a singleton on his right. The declarer had to decide the position of the aces. As the cards lie, the winning play would be to attack hearts,

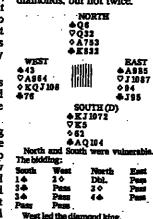

establishing a trick in that suit quickly. He could be forced to would have no more diamonds to lead when he eventually won the spade ace.

However, playing hearts would be wrong if West held heart ace.

South succeeded in having the best of both worlds. At the second trick he led a low trump from dummy. East would now North used a negative double. have beaten the game if he had

ad Florida N

When the spade king won, South knew what to do next. It was now clear that West's ace was in hearts, so he led a low heart. West ducked, and the queen won in dummy. Now it was an easy matter to play trumps and score the game. South could be forced once in diamonds, but not twice.

Vilas Upset; Navratilova, Connors Gain

NEW YORK -- Guillermo Vilas of Argentina was upset by Greg Holmes Saturday in the third round of the U.S. Open Tennis Championships. Vilas, seeded sixth and the last foreign player to win the U.S. Open, fell to Holmes, 6-2,

Martina Navratilova, the women's top seed who is trying to win the only major title that has eluded her, sped through Kate Gompert, 6-2, 6-2. Meanwhile, Jimmy Con-nors, the defending men's champion and seeded third this year, eliminated Bruce Manson, 6-0, 6-4, 6-0, and Andrea Jaeger, seeded third, outlasted Mima Jausovec of Yugo-

6-2, 6-3.

slavia, 6-2, 6-7, 7-6. Ninth-seeded Andrea Temesvari of Hungary was upset, 6-4, 6-0, by Pascale Paradis of France, who is the French and Wimbledon junior

Heinz Gunthardt of Switzerland closed out Saturday's third-round play by upsetting 11th-seeded Gene Mayer, 6-1, 6-0, 6-0. Mayer came completely unraveled with a flood of unforced errors in the match, which lasted only 66 minutes. Mayer held service in the third game of the first set before Gunthardt won the next 16 games to move into the next round, where he

Aga Khan Awards Emphasize Local Resources and Initiatives

By Geoffrey Weston

TONDON - When the Aga Khan presented the first of his triennial architecture awards in 1980, he said, "I have been increasingly concerned with the physical form that the Islamic world will take in the future: the houses we live in, our places of work, the institutions that serve us, the gardens and parks where we rest, the markets and, of course, the mosques. How will they look? How will they affect our perceptions of the world and of ourselves? And, above all, will the Islamic environment of tomorrow be identifiably ours?"

The second Aga Khan award for architecture, valued at \$500,000, was distributed among 11 winners in the Topkapi Palace in Istanbul Sunday. As in 1980, the 1983 award winners are about relating architecture to its local roots, with emphasis on using local resources and initiatives creatively. They range from a huge mud mosque in Mali to the modern technology in the Haj pilgrimage terminal at Jeddah airport in Saudi Arabia.

Mali was enlarged from a much smaller building by Lassine Minta, a master mason who did the work for only \$365 with materials and labor supplied by the community. The massive structure is mud brick, and there are four dominant towers. The jury praised the efforts to continue a powerful vernacular tradition.

In contrast is the White Mosque in Visoko, Yugoslavia, squeezed into a market place in a densely built community, of which it is the religious and intellectual hub. The materials are limited - concrete (plastered and painted white), natural wood and painted iron tubes, with travertine tiles for paths and courtyards, but all from local sources, and most of the cost was raised from local contributions. The interior, though avantgarde, reflects the traditional atmosphere of a mosque.

The Hafsia quarter in the Medina of Tunis presented an early problem of inner city decay that began in the 1920s. Parts were demolished before local and UNESCO experts took it in hand. Their efforts are criticized for fail-

The Great Mosque of Niono in ing to meet lower-income needs, but the public spaces are sensitively organized, new buildings have been inserted discreetly, and because the project provides a valuable lesson for other old urban areas in the Moslem world.

> The question of the viability of traditional building methods and craftsmanship in a rapidly mechanizing world was repeatedly raised as the jury sifted through more than 200 contenders. The Ramses Wissa Wassef Arts Center in Giza, Egypt, offered an answer. It was named for a man who started with the simple aim of preserving vanishing crafts, but when he built his weaving school he decid-ed to employ Nubian master masons and construct a mud building of vaults and domes inspired by traditional Nubian methods.

The school was a success. The students learned building as well as weaving. Schools of pottery, carpet weaving and stained glass were added and then came houses and a museum. The project grew naturally out of its environment, supported the local village and brought it fame, as well as archi-

The original idea of recognizing excellence in design was reinterpreted by the jury for the first award, and a similar line has continued. The right balance among jury members was crucial - one sociologist and eight architects (six from Islamic countries), aided by technical assessors, who included local people. Their choice reflected the battle between the monument and social progress. Social benefit scored heavily. Only one personal whim appears among the winners — an elegant country house designed for his own use by the Turkish poet and architect Nail Cakirhan. It drew special praise for its use of space in a traditional Turkish way but in a form that goes well beyond simple reproduction and harmonizes exceptionally well with its natural surroundings on the southwestern coast of Anatolia.

Two tourist developments are also commended. A complex comprising apartments, a restaurant and other services at the huge new resort of Port el Kantaoui in Tunisia, successfully blends estab-lished North African elements like courtyards, interior gardens, pools and local tiles, with modern building methods. It is restrained, avoids pastiche and has been very popular with visitors.

The Tanjong Jara beach hotel and a nearby visitors' center comprise an environmental and conservation experiment that has had considerable impact on tourism in Malaysia. The hotel, modeled on istanas — the old hardwood palaces built for former sultans and the visitors' center, have revived old skills and built up employment opportunities. The center is on stilts over a river to let tourists watch giant turtles lay their eggs in the sand without causing ecological disturbance.

Partly perhaps because the standard of competition has been lower than expected and partly to stress cultural continuity, three of the winners are conservation projects. The restoration of the Darb Qirmiz quarter in Cairo has brought life back to a 10th-century residential area, dotted with important Islamic monuments.

Award-winning hotel and visitor's center in Malaysia.

while the work on the Azem palace (now a museum) in Damascus and the tomb of Shah Rukn-i-'Alam in Pakistan are reminders of what quality of workmanship is

At a time when Islamic culture is only just recovering its identity, the jury has avoided as far as possible sophisticated projects by es-tablished Western architects. One wholly American design is included partly because it relates closely to the essence of Islamic faith. The Haj terminal at Jeddah airport, designed by Skidmore, Owings and Merrill and partners, can ac-commodate up to 80,000 pilgrims bound for Mecca. Its tentlike structure pushed modern technol-

ogy beyond established frontiers. The competition's documentation on losers as well as winners, together with the twice-yearly ninars organized by the award secretariat, comprise a valuable source of research material. More important, it demonstrates that quality is not just an ideal but a practical aim, and by poking its nose into the smallest places, it encourages people at a local level by recognizing that they exist and matter on a scale that they might

BRAZIL POSTCARD Concerts on the Steps

By Bruce Handler The Associated Press

R IO DE JANEIRO — Brazilian cultural officials have an unusual program to take classical music out of the concert hall and put it on the street for Brazil's poor and often illiterate masses.

A concert series, called "Sunday on the Steps," has attracted enthusiastic crowds to Rio's Municipal Theater, an ornate hall usually frequented by the affluent. The difference is that these free performances are not inside the building but outside at the front entrance.

"Regrettably, until now serious music in Brazil has been seen as something only for the clite," says Hugo Carvana, vice president of the Rio de Janeiro State Arts Foundation and an originator of "Sunday on the Steps."

"We decided to take the music out of the concert hall, so people who never were exposed to it could try it out, without feeling shy about going to the Municipal Theater or worrying about the cost of a ticket." Carvana, a popular actor and film producer, said.

A good seat for a regular Brazilian Symphony Orchestra concert at the Municipal Theater costs the equivalent of \$12 - four days' pay for the average worker. Carvana said that with the public concerts, "We have planted a seed, and people's reaction has been very posi-

A recent Sunday concert featured excerpts from the Puccini opera "Madame Butterfly." Some 4,000 people — twice as many as the theater holds inside - turned out on a sunny morning, filling downtown Cinelandia Square at the base of the hall's steps.

Sitting on beach chairs and occasionally munching on homemade sandwiches, they listened attentively and then applanded and cheered after each aria and orchestral selection. Paulo Goulart, a TV soapopera star, narrated the story of Pinkerton, the American naval officer who falls in love with Butterfly, the young Japanese woman.

This was a totally new experience for me," the conductor, Antonio Tauriello of Argentina, said later. "I admit I was wary at first. But this proved that audiences of any good music

many obvious newcomers, includ. ing a man in a T-shirt who said to his young son, "The music is very beautiful, but if they sang in Brazilian," we'd understand it better,"

some of the performers were afraid the untrained audience would wreck the presentation by talking in the middle or clapping at the wrong time." a reference to the fact the opera was talking in the middle or clapping at the wrong time." Carvana said "But that did not happen.

But that did not happen.

"And to really prove they appreated the music, after the concert is over, when the tenor ciated the music, after the concert was over, when the tenor went to a nearby sidewalk cafe to drink a beer and relax, people who were still in the square went over to him

and broke out in applause." Carvana said that "Sunday on the Steps" is relatively inexpensive to produce, costing about \$1,600 a. performance for sound crews and guest artists. Orchestra and chorus members on regular salaries from the Rio de Janeiro state government are expected to perform at the outdoor concerts as part of their jobs, he said.

Because this idea is very new. there's no actual budget for the program, and we have to scrounge for funds from various state govermment sources," he added. "But we think we'll be able to keep the weekly concerts going through the and of this year."

Sausage Runner Aided by Customs:

LONDON --- An Italian grandmother bound for New York was treated as a terrorist suspect at Heathrow Airport because of her family's fondness for home cooking, officials said Sunday.

Airport security staff suspected the portly lady of smuggling dynamite under her clothing. They found Italian sausages. "The old lady was visiting rela-

tives in America and they asked her to take out some real Italian sansages," an airport official said.:"
"She knew that American customs." would ban her taking them into the := ~ States so she tied them around her waist." The airline waved her on, cultural background can appreciate sausage and all. The incident occurred Friday, but officials kept it: - . -Some in the audience were long- secret until after the passenger:
